LOGO

Lorem ipsum

Text about website (unsure leave as placeholder)

Games Menu

Use simple searchbar (more words search strings)

Home Games Leaderboards Username

Search

Sort dropdown

- sort by name (ascending/descending/none)
- sort by play count (ascending/descending/none)

acts as toggle between the three states

Game name	Play count	Highest score by...

Each game name will be link to corresponds game, which opens in the play page

Leaderboards Page

Home Games Leaderboards Username

Search Q

Game Names | Play count | Leaderboard by

Game Name Leaderboard

1. Name Score
2. Name Score
3. Name Score
4. Name Score
5.
6.

Same search and sort features as Games Menu

closes side menu and expands game list to full space.

Name of game

displays top 10 scores.

(one player can have multiple scores in the list)

lines are shown if not enough plays for top 10

Game name is link that opens statement to display leaderboard

Play page

Not a dropdown, unlike other pages

ask for exit confirmation and return to games screen

X Game Name Username

Score:

Space for buttons for each screen (depends on game)

Game application

drawing is determined by whichever game script is run

Game over popup:

Game Over

Score . . .

Play Again

Exit

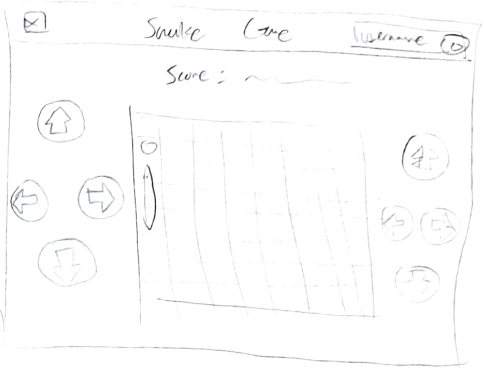
Saves score to logged in

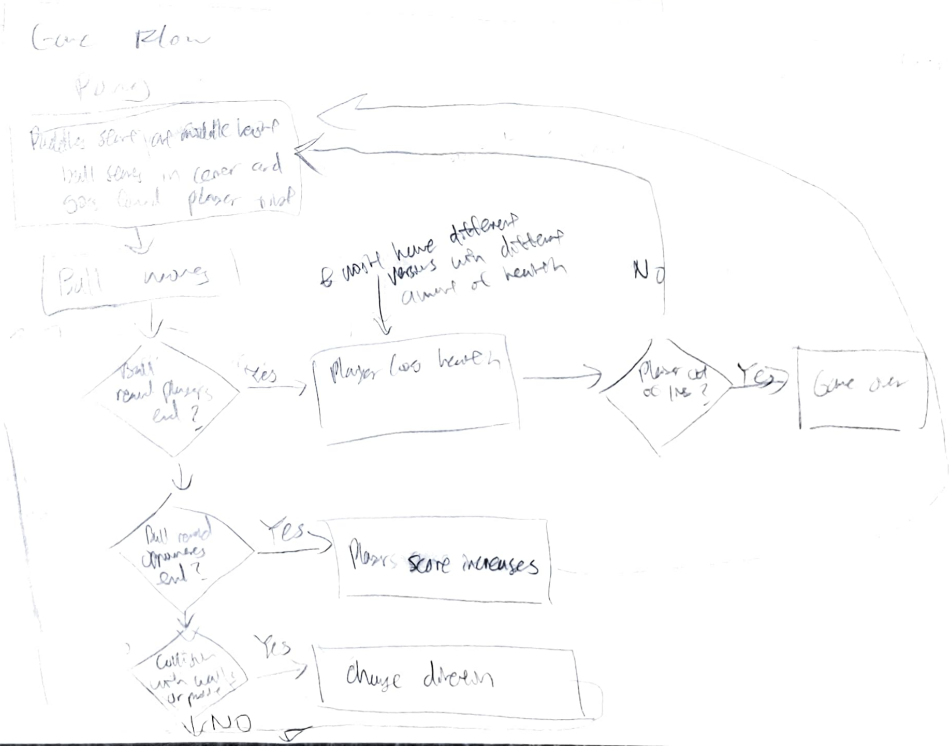
run game again

exit to games menu

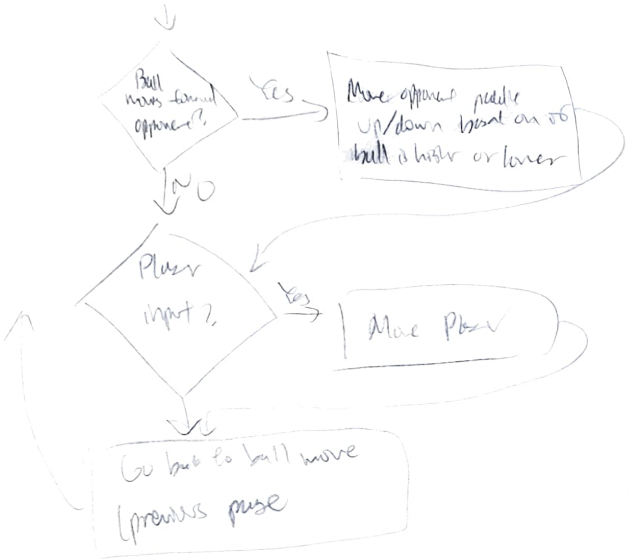
Play pause examples

controls on both sides so that both hands can be used (still singleplayer)

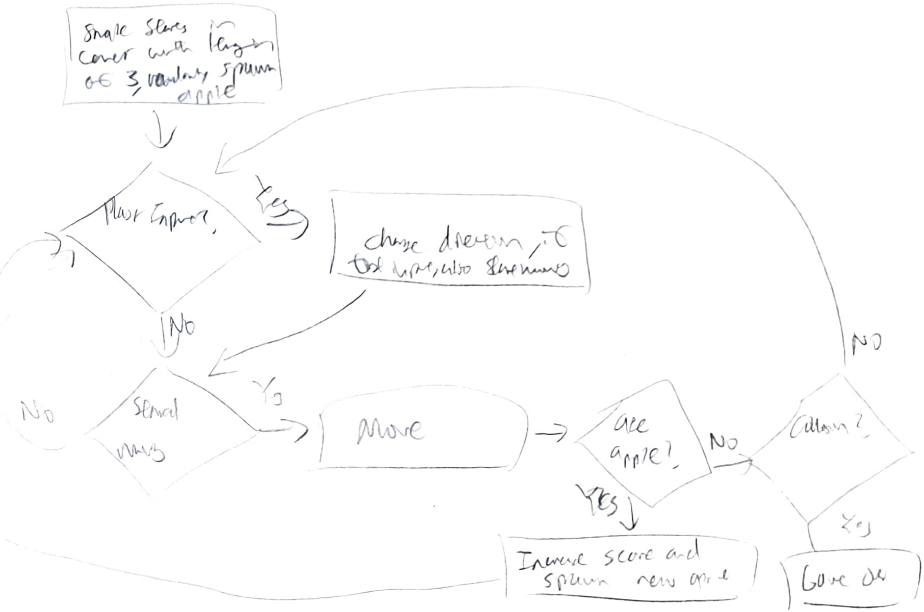




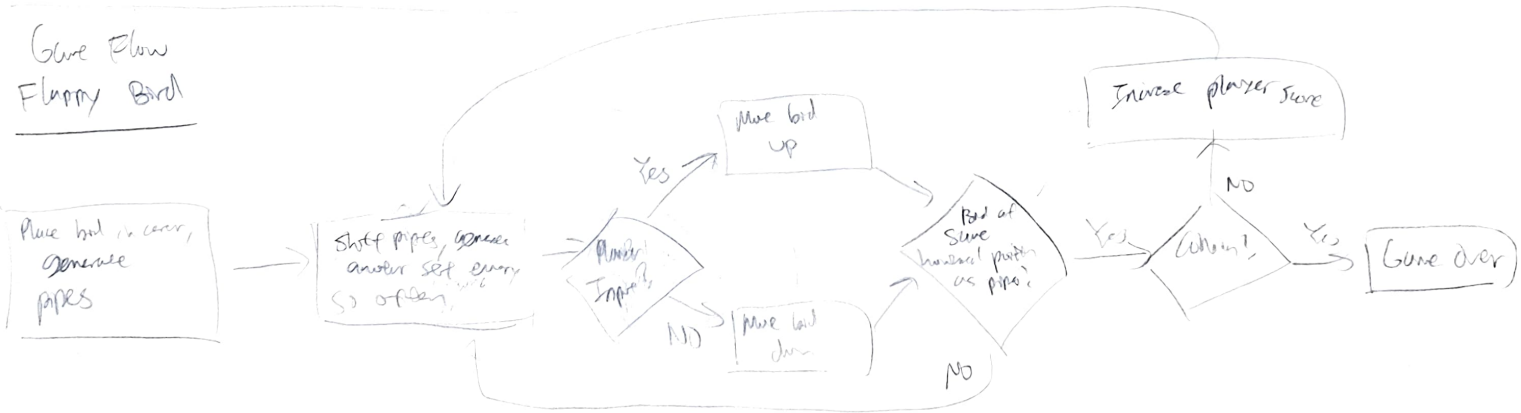
Game Flow
Pong (continued)



Game Flow
Snake Game



Game Flow
Flappy Bird



Login/Sign up page

return to home page

grays out the one it is not on
